DISCIPLINE DESCRIPTION

This category accepts submissions from composers working in any and all styles of music including vocal and instrumental artists, soundscapes, and experimental forms.

WORK SAMPLES

Work samples are a representation of your artistic work. This is the most important part of your application, as it will be the primary point of review. Keep in mind the panel reviews a large volume of material in quick succession; therefore, it is very important that you present your work clearly. **This is not a project grant;** therefore you should be submitting work that is completed, or is a completed piece of an ongoing/continuing body of work.

TIP: Work samples produced in the past five years are highly recommended. If you submit older work samples, consider providing an explanation as to why you chose the older work samples in the metadata section.

What to Submit

Applicants can submit up to 3 separate audio uploads. The maximum combined length of all work samples is 15 minutes.

Audio

- **Formats Accepted**
 - MP3, M4A, WAV, or AIFF
- Recommended: No larger than 2 GB
- **Do not label your work sample with your name.**
- Applicants applying to the Music/Sound category must be able to represent their practice solely through audio work samples, score/lyric sheets, and supplementary statements. Artists working with music/sound who require submitting image/video work samples should apply in the Interdisciplinary Work category.

Note: The panel will only review up to the maximum duration allowed for your application. If your audio uploads go beyond this duration, please provide your timestamps in the work sample description (metadata).

Metadata Section in Application: A metadata section will appear on your application form after your work sample has been uploaded or below your link. In this section, you will be able to provide the following information:

- **Title**
- **Date of Completion**
- **Timestamps**
- **Additional information:** Be sure to note whether your work samples represent documentation of a performance, installation, experience, etc

Score or Lyric Sheet

(Optional) Applicants can submit 1 Score or Lyric Sheet document (corresponding scores, fully harmonized lead, or lyric sheets).

- **Formats Accepted**
 - PDF Only
- Each work may be accompanied by 1 copy of corresponding scores or, where appropriate (e.g. jazz/extended forms), fully harmonized lead sheets, and/or lyric sheets.
- Scores should be submitted as a single PDF and labeled with the title of each work sample. Please indicate on your score sheets where your excerpts begin to help orient the panel.

SUPPORT STATEMENTS

Support statements are to be submitted directly to the application form in the corresponding textboxes. We recommend writing your statements in Microsoft Word or Google Docs and pasting them to Submittable. **Document uploads for Support statements will not be accepted.**

What to Submit

Artist Statement

(Required, 250-Words Max.): A concise statement giving an overview of your artistic practice.

- This statement should give a brief introduction to ideas, themes, and methods in your practice (i.e. how you make what you make, and/or why you make what you make).
- This statement should also specifically reflect the ideas and inspiration relevant to your submitted work samples.
- Use this statement to highlight your role in creating/executing the work, as well as describing the key technical aspects of the work.

- You can also describe the circumstances in which the viewer/audience should experience the work.
- Please include instructions on how to navigate your work if it's interactive.
- **This is not an Artist Bio.**

Cultural Statement

(Optional, 250-Words Max.): A supplemental statement that describes how your work is related to and/or rooted in a specific cultural practice, tradition, or community. This statement can also offer an opportunity to describe how your artistic work relates to or stems from your culturally-specific lived experience(s).

EVALUATION PROCESS

Applications are reviewed over the course of 3 elimination rounds. **All applications are reviewed anonymously in Round 1.**

Rounds 1 & 2: The panel will carefully review and score assigned applications independently. Applications are assigned a number and are reviewed anonymously.

Round 3: The panel will meet as a group and collectively discuss the applications that have made it into this round, and conclude by selecting the Fellowship Recipients.

Evaluation Criteria

Peer review panelists will assess eligible applications according to the following evaluation criteria:

1. Artistic Merit:

- A competitive application demonstrates excellence in their discipline through strong Work Samples that highlight the applicant's creativity, technical proficiency, and cohesive artistic vision.

2. Clarity and Cohesiveness:

- A competitive application presents clear, concise, and compelling Support Statements that provide valuable insights into their practice and motivations. The Support Statements should work together with the submitted Work Samples to provide a comprehensive understanding of the applicant's vision and goals.

3. Originality and Innovation:

- A competitive application showcases innovative methods, ideas, and/or concepts that makes their work stand out within the discipline. Panelists will assess the uniqueness and originality of an applicant’s approach, including the quality of execution, innovation in materials or techniques, and the overall impact of your work.

Funding Priority

As part of the evaluation process, the NYSCA/NYFA Artist Fellowship prioritizes applications from New York State residents who live outside of the New York City metropolitan area. While this prioritization is considered within each round of review, it does not guarantee any specific outcomes regarding who will ultimately be awarded a fellowship.

HOW TO APPLY

We only accept applications via Submittable. First-time users will need to register with Submittable to access the application portal.
